
Environmental Policy Statement

Gill Sensors & Controls Limited shall seek to understand the impacts of our activities on the environment and to minimise these impacts and to find sustainable solutions to Environmental concerns. We will therefore aim to ensure that all of our products and services are managed such that Gill Sensors & Controls Limited will take every practical opportunity to improve and maintain the quality of both our local and global environments.

In support of the above, Gill Sensors & Controls Limited is committed to the following:

- **To Comply** with all relevant environmental legislation related to Gill Sensors & Controls Limited activities and continually improving its environmental performance through the application of an Environmental Management System
- **To Reduce** the use of material and energy resources by reducing and where possible preventing pollution
- **To Monitor and Report** our environmental performance with the aim of achieving continuous improvement
- **To Promote** the protection of the natural environment for future generations
- **To Increasing Awareness** of environmental concerns
- **To Make** this Policy available to our interested parties
- **To Maintain** and use ISO 14001 as a basis to achieve our environmental aims and objectives
